

Long Island Nets

Team History Page - Web Design Brief

Modeled on the New York Liberty team-history experience

Prepared: May 2026

Audience: LI Nets web development team

1. Project Overview

Goal: build a 'Team History' destination on the Long Island Nets site, modeled on the New York Liberty team-history experience. The landing page anchors a season-by-season written history and surfaces three deeper sub-pages via prominent buttons:

- All-Time Call-Ups - every Long Island Nets player called up to an NBA roster
- Franchise Leaders - top 5 all-time leaders across 19+ statistical categories
- All-Time NBA G League Awards - league-wide honors won by LI Nets players/staff

Each section below pairs a NYL reference link (click to view the live design we want to mirror) with the LI Nets content that should populate it. Where this brief lists data, the underlying source is also available as the PDFs the design team has already received.

Reference URLs at a glance

Click each link to view the NYL page that informs the LI Nets equivalent.

Page	NYL reference URL
Landing page	liberty.wnba.com/team-history
Franchise / Year-by-Year Leaders	liberty.wnba.com/team-history/year-by-year-liberty-leaders
All-Time WNBA Awards	liberty.wnba.com/team-history/all-time-wnba-awards

Note on visual references: the brief was assembled programmatically and the WNBA site blocked automated screenshot capture. Each section below links directly to the live NYL page so the design team can pull screenshots / inspect layout interactively. Section descriptions below call out the specific design elements to mirror.

2. Team History Landing Page

Path suggestion: /team-history

Reference design

Live page:

Layout elements:

- Hero / page banner with title 'All-Time Call-Ups' and a back link to /team-history.
- Single full-width sortable table, columns: Season | Player | NBA Team / Gatorade Call-Up | Date Signed | Contract Type.
- Default sort: Season descending (newest first); allow toggle sort by Player or NBA Team.
- Visual rhythm: alternating row shading, sticky header on scroll.
- Each player name can optionally link to that player's NBA Stats / Basketball-Reference profile if available - confirm with comms before linking externally.

4. Franchise Leaders Page

Path suggestion: /team-history/franchise-leaders

Reference design

Live page:

Layout elements to mirror:

- Hero / page banner with title 'Franchise Leaders'.
- Grid of small leader tables - on NYL these are organized by season; for LI we want career (all-time) leaders, so organize by STAT CATEGORY instead. Each category is its own mini-table of the top 5.
- Suggested grid: 3 columns wide on desktop, 1 column on mobile. Each tile has a category title (e.g. 'POINTS') and a 5-row table with Player + value.
- Data is regular season + Showcase Cup combined; include a small caption noting this.
- Source data is maintained by Elias Sports Bureau (per the PDF footer) - add a small attribution line at the bottom of the page.
